HELLO FALL

Pre-Authorized Payment

Pre-authorized payment is secure and the best way to pay rent. It ensures your rent is paid on time and contact free.

You can find a pre-authorized payment form on our website or you can contact your superintendent or the office for one.

COMPARING COVID-19 AND FLU

The two vaccines are different and cannot be directly compared. First, the vaccines are targeting different viruses as, although the flu and COVID-19 share some common symptoms, they are caused by different viruses. Second, the flu vaccine has to combat several influenza viruses which mutate whereas the COVID-19 vaccine targets just one virus.

COVID-19 and influenza are both contagious respiratory illnesses and share some symptoms but they are caused by different viruses. They both share symptoms such as coughing, fever and tiredness. However, COVID-19 can also cause changes to sense of taste and smell, and seems to cause more serious illness in some people. Influenza is caused by four types of influenza viruses, types A, B, C and D. Influenza A and B viruses such as H1N1 and H3N2 cause seasonal epidemics of the disease. COVID-19 is a new disease caused by a novel coronavirus SARS-CoV-2 that has not been seen before in humans.

Laundry

Please be mindful of other tenants when doing laundry. Please keep track of the time when your laundry will be done so that you can get your clothes out right away. Others may be waiting to use the machine. Laundry is not to be hung up on the balcony.

After I am vaccinated, do I still have to wear a mask or face covering? YES

After your COVID-19 vaccination, it is important to keep following safety measures. **Even once protected, you can still carry COVID-19 and pass the virus onto others.**

KITCHENER • WATERLOO
OKTOBERFEST

No tenant, resident, guest, visitor shall smoke cigarettes/cigars or any similar products within the building. This includes residential units, all balconies and patios, common areas, as well as outside within nine metres of doorways.
